4. INFRASTRUCTURE AND LEARNING RESOURCES

4.1.1. FACILITIES FOR TEACHING, LEARNING VIZ., CLASSROOMS, LABORATORIES, ICT INFRASTRUCTURE

The college is in favor of developing a support network to enhance the process of teaching and learning. It places the utmost emphasis on building the physical facilities and infrastructure required to achieve efficiency in the teaching-learning process. The physical facilities and infrastructure of the college are suitable for the courses that are being delivered.

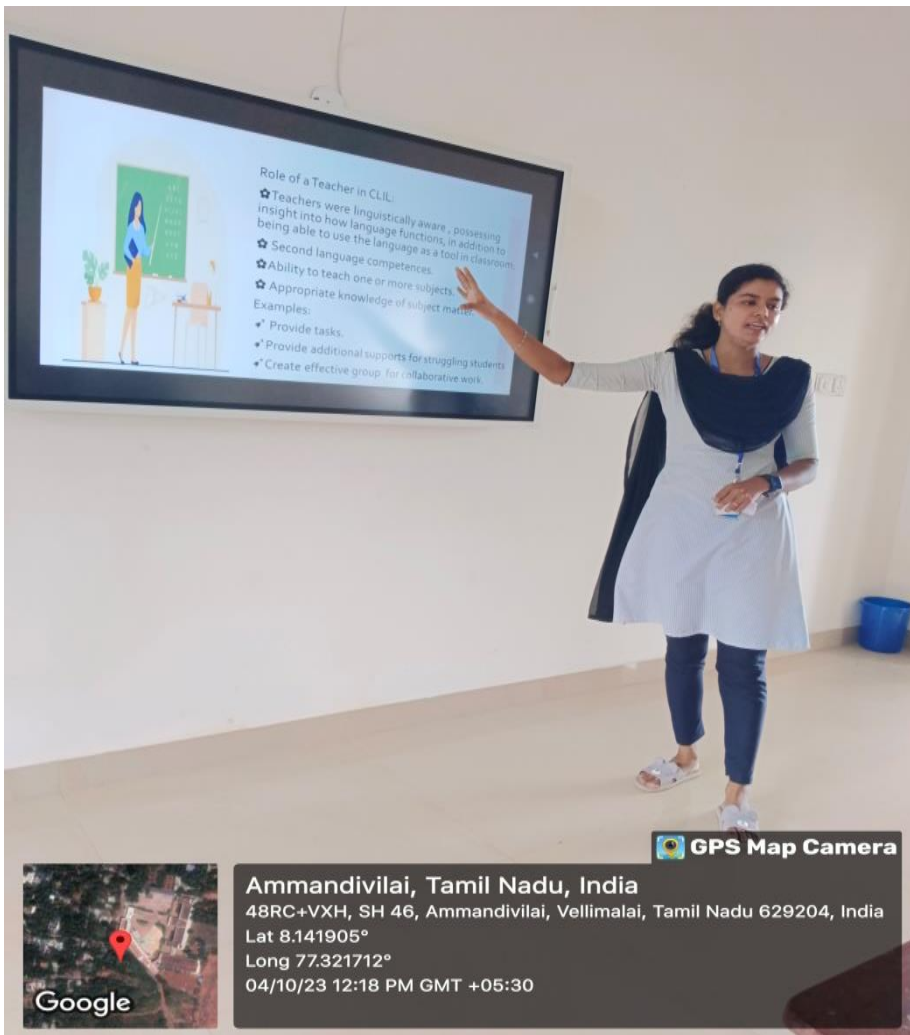

CLASSROOMS

The institution has 34 classrooms with varying capacities to accommodate UG, PG, M.Phil., and Ph.D. students. Each classroom is set up correctly, has enough light and air, and is adequately ventilated. There isn't much except comfy furniture in the rooms (tables, desks, and seats).

SMART CLASS

Seven Smart class rooms are available for each department. Through ICT based learning, students can easily understand the classes. The main feature of utilizing smart classrooms is its visuals and less consumption of time.

DEPARTMENT

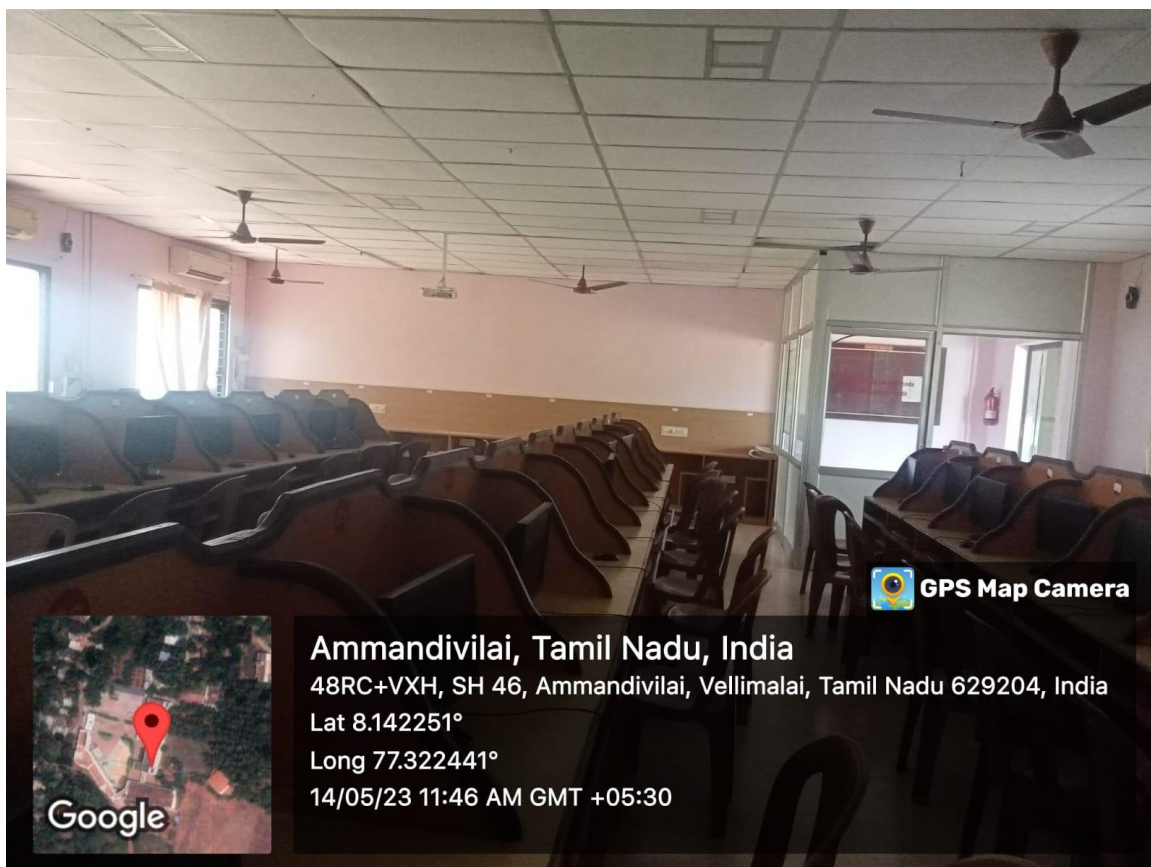

Each department has their own faculty room where in all the members of concerned department can have their own space. All rooms have computers with internet, LAN, printer, internet. Wooden cupboards are used for storage purposes.

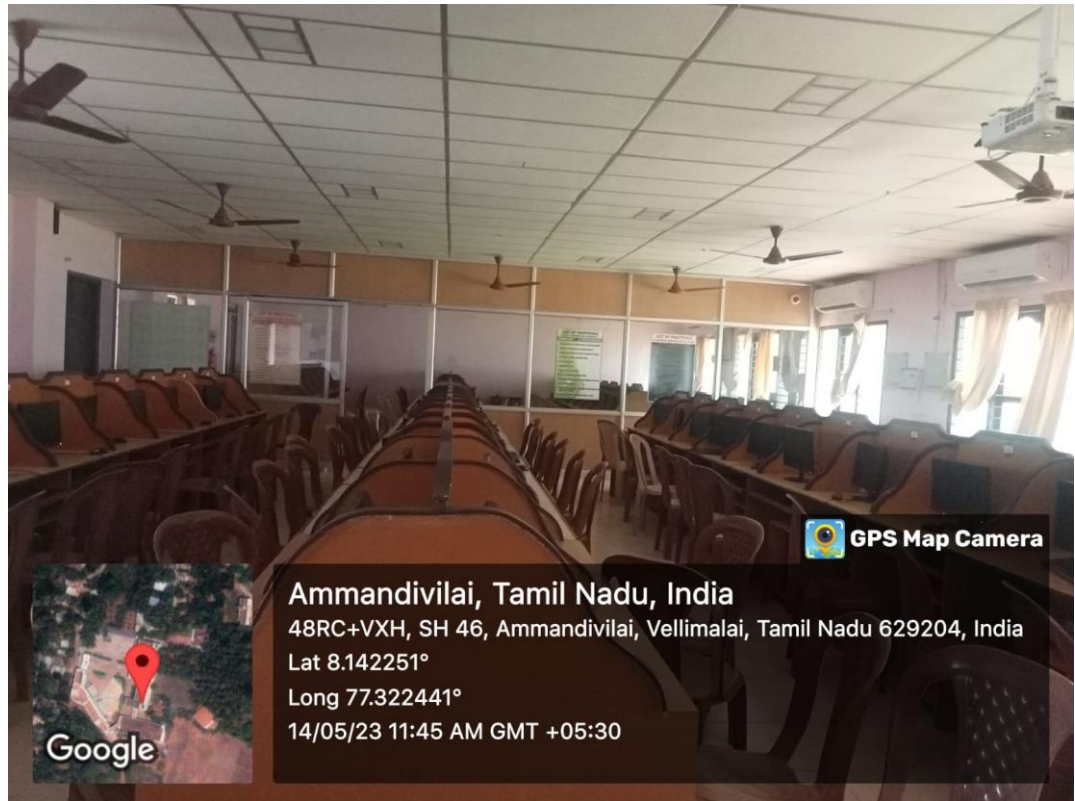

LABORATORIES:

The college provides separate computer labs for computer science (UG and PG) and computer applications (UG) courses and a Physics lab for undergraduate students.

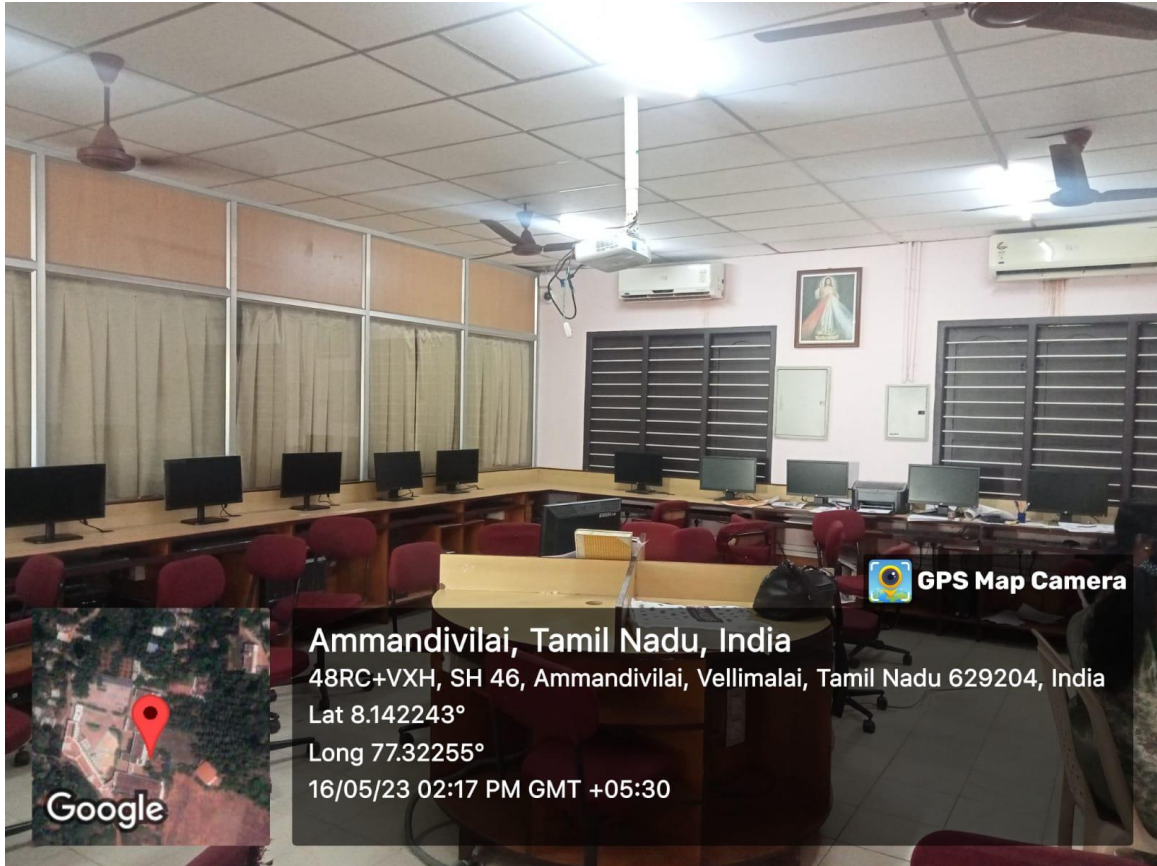

COMPUTER SCIENCE LAB (UG)

COMPUTER APPLICATIONS LAB (UG)

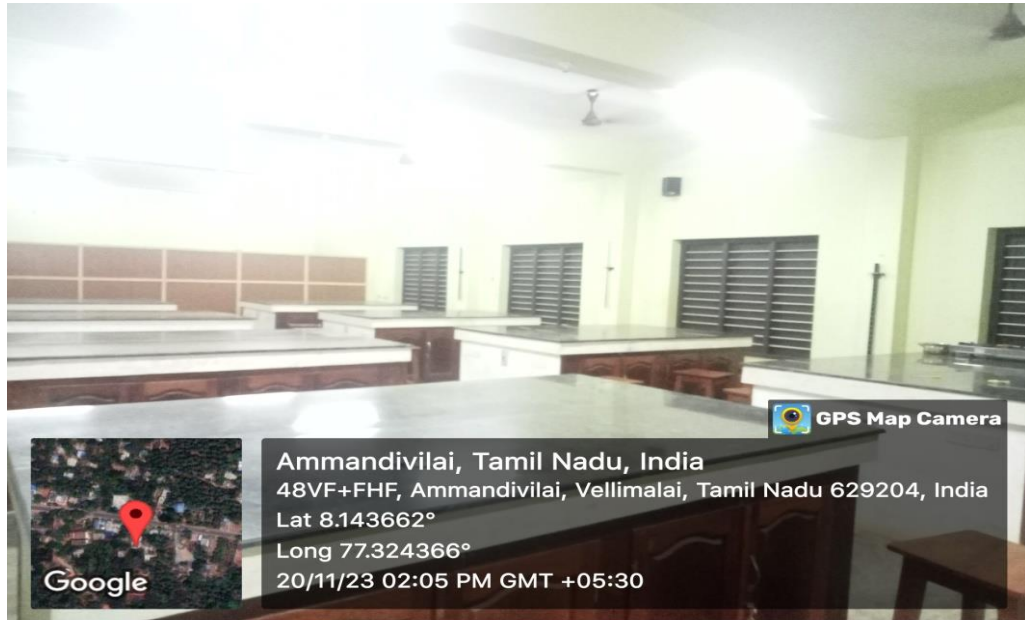

COMPUTER SCIENCE LAB (PG)

PHYSICS LAB

Physics labs are also used by students who learn about the science through demonstration. Physics is primarily concerned with how motion, light, heat and force interact with energy and matter, so a physics lab has a variety of instruments used to conduct these kinds of experiments.
